EDUCATION

The University of Texas at Arlington

Bachelor of Science in Computer Science

GPA: 3.72 | Major GPA: 3.86

President's List: Spring 2026, Fall 2025

Arlington, TX | Expected Dec 2026

PROJECTS

DevOpsPulse | React, TypeScript, Express, Prisma, PostgreSQL, GitHub Actions

- Built a deployed uptime monitoring platform for availability, latency, incidents, alerts, and public status pages.
- Implemented JWT auth in an httpOnly cookie, user-scoped monitor CRUD, and protected scheduler endpoints.
- Designed incident detection logic for down, degraded, pending, up, and recovery states using stored check history.

ResumeRoast | React, Node.js, Express, MongoDB, Claude, Stripe

- Built a SaaS-style resume review app with account auth, PDF uploads, ATS scores, AI feedback, and downloadable rewrites.
- Integrated Stripe Checkout, Billing Portal, and webhooks to sync subscription status and enforce usage limits.
- Used Claude Haiku 4.5 with strict JSON outputs and server-side controls for input size, rate limits, and error handling.

Java Messaging Console | Java, OOP, File I/O

- Developed a console-based messaging platform with user accounts, group discussions, direct messages, and threaded replies.
- Created modular classes for accounts, messages, posts, groups, and menu-driven interaction.
- Implemented persistent file I/O with BufferedReader and BufferedWriter across application sessions.

TECHNICAL SKILLS

Languages: Java, C++, C, JavaScript, TypeScript, SQL, HTML/CSS

Frameworks: React, Node.js, Express.js, Vite, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, MongoDB Atlas, Neon, Prisma, Mongoose

Tools: Git, GitHub, GitHub Actions, VS Code, Eclipse, Postman

Cloud/Deployment: AWS, Vercel, Render

Concepts: Data Structures, Algorithms, Object-Oriented Programming, REST APIs

LEADERSHIP / EXTRACURRICULAR

Coding & Technical Activities

Spring 2024 - Present

Student Developer, UTA

- Competed in a university-level algorithmic coding contest at UTA under timed constraints.
- Completed Harvard CS50x, covering algorithms, memory management, and data structures.
- Actively solving data structures and algorithms problems on HackerRank.
- Earned HackerRank Software Engineer Certification:
<https://www.hackerrank.com/certificates/bc2d402861a9>
